## FOREWORD

Every year Micro, Small & Medium Enterprises Development Institute, Cuttack under the Ministry of Micro, Small & Medium Enterprises, Government of India has been undertaking the Industrial Potentiality Survey for the districts in the state of Odisha and brings out the Survey Report as per the guidelines issued by the office of Development Commissioner (MSME), Ministry of MSME, Government of India, New Delhi. Under its Annual Action Plan 2017-18, all the districts of Odisha have been taken up for the survey. This Industrial Potentiality Survey Report of **Nabarangpur** district covers various parameters like socio-economic indicators, present industrial structure of the district, and availability of industrial clusters, problems and prospects in the district for industrial development with special emphasis on scope for setting up of potential MSMEs.

The report provides useful information and a detailed idea of the industrial potentialities of the district. I hope this Industrial Potentiality Survey Report would be an effective tool to the existing and prospective entrepreneurs, financial institutions and promotional agencies while planning for development of MSME sector in the district.

I like to place on record my appreciation for Sri B. K. Moharana, Asst. Director (EI) of this Institute for his concerted efforts to prepare this report for the benefit of entrepreneurs and professionals in the state.

Place: Cuttack

Dated: 28<sup>th</sup> November, 2017

## **Brief Industrial Profile Nabarangpur District**

**General Characteristics of the District:** The district of Nabarangpur was formed on 2<sup>nd</sup> October, 1992 after being spun off from the erstwhile Koraput district. The headquarters of the district is at Nabarangpur. The predominant economic activities prevalent in the district are agriculture, horticulture, fisheries, animal husbandry, forests, mining in MSME sector and handicrafts and handloom industries in the KVIC/KVIB sector. There are no large scale industries in the district. The district is predominantly inhabited by tribals like Kandha, Paraja, Soura etc.

**1.1 Location & Geographical Area.** The district is located on the Southern part of the state and it extends to the North and West up to Bastar district of Chhattisgarh, in the South up to Koraput district and in the East up to Kalahandi district. The district is located at 81 degree to 82 degree longitude and 19 degree to 20 degree latitude. The geographical area of the district is 5291 sq. kms

**1.2 TOPOGRAPHY:** The District falls under East Coast Plains and Hills as per Government of India Agro-Climatic Zonal Planning. The entire district except Dabugam block falls under 'Eastern Ghat High Lands'. Dabugam block falls under 'Western Undulating Lands'. The climate is sub-tropical to temperate. It is characterized by hot and dry summer, cool and humid monsoon and cold and dry winter. Two types of soil are found in the district like Red and Laterite. The soil PH is neutral to alkaline and its salinity is normal. The district is predominantly inhabited by tribals like Kandha, Paraja, Soura etc.

**1.3 Availability of Minerals:** The district has occurrence with some mineral deposits like Iron Ore, Quartz, China Clay and Granite etc. However these are not yet commercially exploited..

**1.4 FOREST:** Forest occupies 46.51% of the total geographical area of the district. The major forest products of the district are **Timber, Firewood and Bamboos. Besides, the minor forest produce of the district are tamarind, Siali leaves, Karanja seeds, arrow-root, Kusum seeds & Sal seeds. The Kahua brooms and gendulu gums** are collected by tribals and procured by LAMPS, TDCC and Oil Orissa. Forest has economic relevance to the district. However, the forest produce are under constant pressure due to the practice of shifting cultivation amongst tribals and increased demand of timber and firewood by the people. A large number of tribal families earn their livelihood from the forest produce. Forestry and wasteland development is proposed to be given greater thrust in District Planning.

**1.5 Administrative set up:** The district comprises of one Sub-Division i.e. Nabarangpur and ten CD Blocks viz; Nabarangpur, Nandahandi, Tentulikhunti, Papdahandi, Kosagumuda, Dabugaon, Umerkote, Jharigaon, Chandahandi and Raigarh. The revenue administration is managed through network of ten Tahasil offices spread out in the district. The district has 13 Police Stations, three towns and 169 Gram Panchayats having 891 Villages. The detail picture of administrative set-up of the district is given below:

### 3.4 Large Scale Industries / Public Sector undertakings (NIL)

### 3.7 Vendorisation /Ancillarisation of the Industry

As there is no large scale industry in the district, there is little scope for ancillary development. However, some ancillary and downstream industries can be promoted basing upon the requirements of the mother plants located in the neighbouring districts. In this liberalized era, the place or locality is not a rigid criteria for development of ancillary industries. This can be done taking into view the requirement and demand of the mother plants located inside the state. Similarly, as a number of large scale industries are on the pipeline specially on steel, mine and power sector for which MOU has already been signed. So, there is scope for ancillarization in near future.

### 3.8. Medium Scale Enterprises

### **3.9 Service Enterprises**

**3.9.1.** There is positive growth with respect to service enterprises like transport, and repairing services. There is also services activities like grinding of Food grain like rice milling etc.

#### **3.9.2 Potentials areas for service industry**

Activities under service and business sectors generally require less capital and labour intensive in nature. It is widely feasible because of growing need towards these services. The following servicing units are identified for the districts.

- 1) Cycle/Rickshaw Repairing unit
- 2) Agro servicing centres
- 3) Retreading of tyre
- 4) Two wheeler and Four wheeler repairing
- 5) Electrical repairing shop and motor winding
- 6) Beauty parlor
- 7) Colour Laboratory
- 8) Dry Cleaning
- 9) Restaurant /Hotel
- 10) Mobile Repairing /Servicing
- 11) Packaged Tourism Centre
- 12) Industrial Consultancy
- 13) Cold storage/Rural Godown
- 14) Grain Milling

### **3.10 Potential for new MSMEs**

Taking into the consideration on availability of raw material and local demand, the following resource based demand based MSMEs are suggested.

1. Rice Mill
2. Cashew nut processing
3. Mushroom processing
4. Maize based products
5. Leaf cup and plates
6. Tamarind Powder/kernel/paste
- 7 .Dal Mill
