## FOREWORD

Every year Micro, Small & Medium Enterprises Development Institute, Cuttack under the Ministry of Micro, Small & Medium Enterprises, Government of India has been undertaking the Industrial Potentiality Survey for the districts in the state of Odisha and brings out the Survey Report as per the guidelines issued by the office of Development Commissioner (MSME), Ministry of MSME, Government of India, New Delhi. Under its Annual Action Plan 2019-20, all the districts of Odisha have been taken up for the survey. This Industrial Potentiality Survey Report of **Subarnapur district** covers various parameters like socio-economic indicators, present industrial structure of the district, and availability of industrial clusters, problems and prospects in the district for industrial development with special emphasis on scope for setting up of potential MSMEs.

The report provides useful information and a detailed idea of the industrial potentialities of the district. I hope this Industrial Potentiality Survey Report would be an effective tool to the existing and prospective entrepreneurs, financial institutions and promotional agencies while planning for development of MSME sector in the district.

I would like to place on record my appreciation for Shri S. K. Sahu, AD (EI) of this Institute for his concerted efforts to prepare this report for the benefit of entrepreneurs and professionals in the state.

Cuttack,  
Dated:

(Dr. S. K. Sahoo)  
Director Incharge

## **Brief Industrial Profile of Subarnapur District**

**1. General Characteristics of the District:** The district of **Subarnapur** came into existence as a 'new district' from 1st April, 1993. It has been carved out of undivided Bolangir district. Subarnapur district comes under 9th Agro-climatic zone of Orissa. i.e. Western Central Table Level. It is located in the Mahanadi River basin. The district is known for its rich cultural heritage, arts and crafts. The textiles and terracotta work of Subarnapur, brass metal works and Filigree crafts of Tarava and Binka, stone carving of Ullunda and Paddy crafts of Dunguripali have earned worldwide reputation. From the time of Chauhan rulers till date, the district of Subarnapur has produced literature of world fame and name. The poet and prophet of Mahima Dharma, Santh Bhima Bhoi was a literary genius of the soil. The predominant economic activities prevalent in the district are agriculture, horticulture, forest and fisheries in small-scale sector and handlooms product/weaving in the artisan, cottage and village industrial activities. It has good spread of artisans. Weaving is the major economic activity of the people of the district. Subarnapur is famous for its handloom products.

**1.1 Location & Geographical Area.** This district lies between 20 degree 30 minute to 20 degree 10 minute North latitude and 83 degree 27 minute to 84 degree 15 minute East longitude. It is surrounded by four districts namely Bolangir(West), Boudh(South), Sambalpur(East) and Bargarh (North). Subarnapur, the district head quarter and the land of temples on the banks of river Mahanadi is in the western part of Orissa. The district spreads over an area of 2337 sq kms.

**1.2 TOPOGRAPHY.** The district has alluvial and fertile soil in the basins of the rivers "Mahanadi", "Tel" & "Ong" suitable for cultivation of a few cash crops. The soil type is sandy, sandy clay & sandy loam. The climatic condition of Subarnapur is quite extreme. Summer is hot and dry. Rainy season is characterized by fairly good rainfall and high degree of humidity. Cold is equally severe in winter. Rains in the district are caused by the South-West monsoon which breaks in June, reaches its peak in August and retreats in the middle of October. The temperature shows a wide fluctuation varying between 47 degree centigrade in summer and below 7 degree in winter. The average rainfall annually comes to 1443.5 mm.

**1.3 Availability of Minerals** -Though some minerals are found in the districts like Quartz, Graphite and Manganese, only production of Quartz is economically viable. There are 3 working mines of Quartz covering 119.225 hectares. The production of Quartz during 2010-11 is as follows.

### **PRODUCTION OF MINERAL 2010-11**

### 3.4. Large Scale Industries / Public Sector undertakings (NIL)

### **3.5. Vendorisation /Ancillarisation of the Industry**

As there is a no large and medium scale industry in the district, there is little scope for ancillary development. However, some ancillary and downstream industries can be promoted basing upon the requirements of the mother plants located in the neighbouring districts. In this liberalized era, the place or locality is not a rigid criteria for development of ancillary industries. This can be done taking into view the requirement and demand of the mother plants located inside the state. Similarly, as a number of large scale industries are on the pipeline specially on steel, mine and power sector for which MOU has already been signed. So, there is scope for ancillarization in near future.

### **3.6 Growth Trend:**

In general there is a growing trend of number of units registered, employment generated in the district over the years. However the growth trend during the year 2014-15 , 2015-16 2016-17 and 2017-18 as depicted in Block 3.2 appears to be very high as large number of Industries had gone into production.

### **3.7. Service Enterprises**

There is every scope for service enterprises with respect to Handloom Sector as Handloom is prominent activities of the district. There are different Handloom cluster exists in different places like Bir Maharajpur, Binika, Sonapur, Ullunda, Tarva, Dunguripally etc Handloom weavers organized themselves into Weavers Cooperative Societies with functional production and marketing society. Thus there is vast scope for service items like silk twisting, dyeing, sizing, knitting, and jari work in the district for the master weaver and enterprises.

### **3.8. Potentials areas for service industry**

Activities under service sectors generally require less capital and labour intensive in nature. It is widely feasible because of growing need towards these services. The following servicing units are identified for the districts.

- 1) Cycle/ Auto Rickshaw Repairing unit
- 2) Agro servicing centres
- 3) Retreading of tyres
- 4) Reconditioning of Battery
- 5) Electrical repairing shop and motor winding
- 6) Cyber cafe
- 7) Diagnostic centre
- 8) Colour Photo Laboratory
